Since its founding in 1922, the Good Samaritan Society has grown to become the nation's largest not-for-profit provider of senior care and services.

Our mission and our obligation is to share God's love in word and deed by providing shelter and supportive services to older persons and others in need, believing that

In Christ's Love, Everyone Is Someone.

For more information, contact your local Good Samaritan Society community or visit www.good-sam.com.

www.good-sam.com

The Evangelical Lutheran Good Samaritan Society provides housing and services to qualified individuals without regard to race, color, religion, gender, disability, familial status, national origin or other protected statuses according to applicable federal, state or local laws. Some services may be provided by a third party. All faiths or beliefs are welcome. Copyright © 2014 The Evangelical Lutheran Good Samaritan Society. All rights reserved.

Our Services

*The help you need
when and where
you need it.*

Rehabilitation and Skilled Care (RSC)

Rehabilitation and Skilled Care services provide medical and/or skilled treatment to help individuals return to the place they call home. Our nursing care staff is available 24 hours a day to assess and attend to individuals' needs.

Outpatient Therapy services provide therapy services to people of all ages who do not require hospitalization or 24-hour skilled care.

Long-Term Care provides a range of services to help meet your health or personal needs over an extended period of time while providing opportunities for spiritual growth in a homelike environment. Our nursing care staff is available 24 hours a day to assess and attend to individuals' needs.

Post-Acute Rehabilitation Services are provided to people of all ages participating in rehabilitation following hospitalization from surgery, injury or illness. Our 24-hour nursing care staff strives to help you or your loved one recover quickly.

Memory Care provides compassionate care for those suffering from Alzheimer's or other dementia-related diseases in a calm, homelike and secure environment.

Respite Care helps families by providing temporary, short-term relief from the demands of caring for loved ones who require specialized care or supervision.

Adult Day Services are community-based adult programs designed to promote well-being by providing social, nutritional and/or health-related services.

Senior Living (SL)

Assisted Living offers a combination of housing, personal care and other supportive services for people who want to remain in a residential environment but do not require the level of medical care found in a traditional rehabilitation and skilled care center.

Housing with Services communities are designed for people who want to enjoy a lifestyle filled with recreational, educational and social activities. These communities offer comfortable housing options and many offer services such as housekeeping, laundry, meals and transportation.

Affordable (Subsidized) Housing encompasses all types of housing communities where some type of financial assistance is available for those who qualify.

Memory Care Housing provides services and housing ideally suited for individuals with Alzheimer's disease and related dementia. Memory Care Housing is best suited for residents who require a comfortable environment that encourages individual skills and interests while diminishing confusion and agitation.

Home- and Community-Based Services (HCBS)

Home Health offers personal healthcare services within the comfortable and familiar surroundings of home, as well as providing emotional support for clients and their families.

Hospice Care provides comfort and support to clients and their families in a peaceful environment that seeks to make everyone as comfortable as possible during the final stages of illness and death.

Services@Home

Services@Home assists seniors in their own homes by offering a variety of non-medical services to help them reach their goal of independence. Services include helping seniors recover from surgery, keeping them company or providing a caregiver to assist them with the activities of daily living, all in the comfort of their own home.

LivingWell@Home

LivingWell@Home uses remote patient monitoring and technology to report emerging health information. That information is collected and transmitted to the Society's central monitoring center—called the LivingWell Center—where a team led by nurse specialists analyzes the data and follows up on possible health concerns.

Sensor technology uses discreet, non-invasive sensors—with no cameras involved—to detect changes in normal day-to-day routines, helping caregivers make objective decisions that can proactively help seniors enjoy a better quality of life.

Telehealth tracks vital signs like blood pressure, heart rate, weight and oxygen levels, allowing LivingWell Center staff members to monitor and provide follow-up if any of the readings fall outside of normal trends.

Personal Emergency Response System (PERS) features a device that immediately notifies family or professional care givers in the event of an adverse event such as a fall or sudden illness.

Our Mission

The mission of The Evangelical Lutheran Good Samaritan Society is to share God's love in word and deed by providing shelter and supportive services to older persons and others in need, believing that

In Christ's Love, Everyone Is Someone.
